

## GOSSIP OF THE RUNNERS.

## ON BROOKLYN'S SPEEDWAY.

**FURMEN DISCUSS THE BROOKLYN HANDBICAP.**

Jockeys say there was plenty of rough riding other points about the race.

Mr. Mackay's Mexican a good colt stake events for the week.

Partly interested in horses yesterday morning, a meeting of the Brooklyn Handicap Association of each club was convened over with the result that few changes were made. The victory, however, went yesterday as a strange fact. Mr. Keisterman made no secret of the condition of Arsenal and Reina, the two triumphs, the betting public favored the stable's chances severely, it was the Metropolitan pretty much the same way that Reina took the lead. They both got out in front and home, each having the speed and to stick it out. Reina is a Suburban and she will run well. The statements made by several who rode in the Brooklyn, it was a good affair in which it is a wonder that so many were killed. Bromham, and G. Hollansbee's Roehampton, were the chief losers.

He had the rail, but as soon as the start he was crowded over and ran into fence with so much violence as to be compelled to pull up or run chances very hard. After that Roehampton had the opportunity to get up.

He says that going around the lower part of the track, he had the lead, but the horse who was thrown.

Advanced Guard did the crowding.

Advanced Guard did the crowding.
